הכנס השנתי ה-25 של האיגוד הישראלי לפסיכיאטריה ביולוגית 24-22 במרץ 2022, מלון פסטורל כפר בלום

24-22 במרץ 2022, מלון פסטורל כפר בלום								
רכנית - Program								
Research Workshop of The Israel Science Foundation:								
	Neurobiology and Advanced Neurosurgical Treatments for OCD and anxiety Organizers: Hagai Bergman, The Hebrew University							
	Renana Eitan, Tel Aviv Sourasky Medical Center							
	Moderator: Hagai Hermseh , Geha Mental Health Center 21/03/2022 - Opera E Hall							
10:30-11:00	Registration, Coffee							
11:00-13:00	Introduction to Neurobiology Methods in Anxiety and OCD Disorders Hagai Bergman, Medical Neurobiology, The Hebrew University							
13:00-14:00 14:00-16:00	Lunch							
	Introduction to Clinical Aspects of Anxiety and OCD Disorders Omer Linkovsky, Psychology, Bar-Ilan University							
16:00-16:30 16:30-18:00	Coffee Break Advanced Neurosurgical Treatments for OCD							
18:30-20:00	Mikael Levy Dinner							
18.30-20.00		22/03/2022 - Opera E Hall						
06:45-08:30 08:30-09:30	Towar	Breakfast rds clinical implantation of adaptive stimulation: chronic bio	markers in Parkinson's disease and implications					
00.50 05.50		for adaptive stimulation in recordings with Lucia Feldmann, Department of Neur ZOOM	th the novel Percept IPG					
09:30-11:30		Closed-loop DBS for (Renana Eitan, Tel Aviv Medical						
11:30-12:00		Coffee Break						
10:00-12:00		ןרים ורופאים עם תלמידי תיכון בנושא: "פסיכיאטריה ומדעי המח פו		מיזם חבר " - Opera C Hall				
	A	nnual Conference of the Israel Society of Tuesday, March 22, 2022	Biological Psychiatry					
12:00-13:30		Parallel Sessions 1						
	Session 1 Opera B Hall	Session 2 Opera A Hall	Session 3 Opera C Hall	חממה Opera E Hall				
	Predictors and biomarkers for mental illness	SHORT TALKS	The inter-relationship between epilepsy and	החממה לרופאים חוקרים" בהנחיית"				
	Chair: Yonatan Kupchik, The Hebrew University of Jerusalem	Chairs: Bat Sheva Hadad, University of Haifa Mor Nahum, Hebrew University of Jerusalem	psychiatry via SEEG and Thalamic DBS Chairs: Hagai Bergman, The Hebrew University Mikael Levy	דר' אמיר קריבוי ודר' כפיר פפר				
	DNA methylation dysregulation of non-coding regions in neurons and oligodendrocytes in individuals with Williams syndrome is associated with pathology and cortical development	The relationship between parental and their depressed/anxious offspring's plasma proinflammatory cytokine levels Tomer Mevorach , Schneider Children's Medical Center; Tel	Diagnosis and treatment of a girl suffering from drug resistant epilepsy with RF guided SEEG: The concept of cortical redundancy					
	Asaf Marco, The Hebrew University of Jerusalem	Aviv University	Eli Hyman, Shamir Medical Center, Zerifin					
	Neurensin-2: a novel cell-type-specific mediator of depression Gali Umschweif, The Hebrew University of Jerusalem	Serum claudin-5 levels among patients with unipolar and bipolar depression in relation to pro-inflammatory cytokine tumor necrosis factor-alpha levels Eldar Hochman, Geha Mental Health Center; Tel-Aviv	First SEEG guided radiofrequency revealing and treating Geschwind syndrome's epileptic neural network: A case study Mikael Levy					
	Machine learning based attempts to predict PTSD: Hope or sobering lesson? Arieh Shalev, Emeritus Professor, Hadassah University Hospital	University Patient and therapist in-session cortisol as predictor of post-session patient reported affect	Hypomania following left temporal lobe SEEG guided radiofrequency ablation: A case study Alexandra Madar					
	Neutrophil-to-lymphocyte and platelet-to-lymphocyte ratios as biomarkers for suicidal behaviors in depressed/anxious children and adolescents treated with SSRIs	Levi Eyal, University of Haifa Reduced anhedonia following internet-based cognitive behavioral therapy for depression is mediated by enhanced reward circuit activation	Electrophysiological targeting of centro-median nucleus in deep brain stimulation for epilepsy patients Stefanie Glowinsky, The Hebrew University of Jerusalem					
	Maya Amitai, Schneider Children's Medical Center Moderating role of depression on the association of tic severity with functional impairment in children Noa Benaroya-Milshtein, Schneider Children's Medical	Shir Hanuka, University of Haifa Long-term effect of antipsychotic treatment on pain threshold and sensitivity in naïve rats Reem Sakas, ORT Braud e College; Bar-Ilan University; Galilee Medical Center Research Institute						
	Center	Gainee inequal center research institute The role of the circular RNA circmGluR5b in the development of fragile X syndrome Yuval Raveh, Bar Ilan University; Ministry of Health						
		Volatile organic compounds as a predictor of stress in rats Elias Mansour, Technion - Israel Institute of Technology						
		The effect of transcranial random noise stimulation combined with cognitive training on symptoms and executive functions in paediatric ADHD Ornella Dakwar-Kawar, Hebrew University						
		Blood brain barrier permeability increases with age in individuals with 22q11.2 deletion syndrome Ehud Mekori-Domachevsky, Chaim Sheba Medical Center						
		Chronotype effects on well-being in Israeli students Anat Lan, Tel-Aviv-Yaffo Academic College Impaired Sense of Agency and Associated Confidence in						

Psychosis Amit Regev Krugwasser, Bar-Ilan University

Light welcome lunch / coffee

13:30-14:00

Session 4 Opera B Hall Session 5 Opera A Hall Session 6 Opera C Hall Studying social emotional interactions in the lab and in the field: evidence from animal models, human behavioral studies. neuroimaging and human behavioral studies. neuroimaging and Clinical updates chairs: Ettie Grauer, Israel Institute for Biological Research Women's mental health in the wake chairse: Ettie Grauer, Israel Institute for Biological Research					
and in the field: evidence from animal models, changes and reproductive events	Opera E Hall "החממה לרופאים חוקרים" בהנחיית דר' אמיר קריבוי ודר' כפיר פפר				
human behavioral studies, neuroimaging and clinical populations Chairs: Ettle Grauer, Israel Institute for Biological Research Shaul Schreiber, Tel Aviv Sourasky Medical Center Chairs: Miki Bloch, Tel Aviv Sourasky					
Chairs: Yoav Cohen, The Jerusalem Mental Health Attempted suicide rates before and during the COVID-19 Liat Helpman, University of Haifa Chairs: Yoav Cohen, The Jerusalem Mental Health Attempted suicide rates before and during the COVID-19 Facilitating PSD treatment by mens pandemic: interrupted time series analysis of a nationally representative sample Facilitating PSD treatment by mens adjunctive neurofeedback Anat Perry, Hebrew University of Jerusalem Arad Kodesh, University of Haifa Liat Helpman, University of Haifa					
I know exactly how you feel - analysis of affective-state recognition in mouse models of Autism Spectrum Disorder Shlomo Wagner, University of Halfa					
Heightened inclusion motivation in loneliness: the role of the left insula Alisa Kanterman & Simone Shamay-Tsoory, University of bails	al Center				
of Haifa Collicit depression and bolining and bolining possibility of the standard of the stan	itudy				
Online group cognitive behavior therapy for social anxiety - An economic solution for mental health public services? Yoav Blay, Geha Mental Health Center Yoav Blay, Geha Mental Health Center					
15:30-16:00 Coffee break and exhibition in the foyer / Check in					
16:00-17:30 Parallel Sessions 3
